REPORT

OF THE

QUARTERMASTER GENERAL

OF THE

STATE OF NEW JERSEY,

FOR THE YEAR 1867.

REPORT.

QUARTERMASTER GENERAL'S OFFICE,
TRENTON, November 30, 1867.

His Excellency Marcus L. Ward, Governor and Commander-in-Chief of New Jersey:

SIR:—I have the honor to submit herewith a report of the operations of this department for the year 1867.

At the close of the last year there had been recruited, armed and equipped, under authority of the act of the Legislature of March 30, 1864, entitled "An act for the more effectual organization of the New Jersey Rifle Corps," and the act of April 6, 1865, entitled "An act for the more effectual organization of the militia," thirty-two (32) companies of the rifle corps, organized into three (3) regiments and two (2) battalions, and one (1) cavalry company, and three (3) batteries of artillery of the active militia.

The entire force of riflemen and militiamen clothed and equipped by the State, prior to November 30, 1866, was about one thousand eight hundred and fifty (1850) men. There have been armed and equipped during the present year, twelve (12) companies of the rifle corps, and six (6) of the active militia mustered, as follows:

One (1) in the Second regiment, numbering forty men.

Four (4) into the Third regiment, numbering two hundred and eighty men.

Six (6) into the Fourth regiment, numbering four hundred and twenty men.

One (1) into the First battallion, numbering sixty men.

Three (3) into the First Veteran regiment, Newark, numbering one hundred and seventy men.

Three (3) into the Hudson brigade, numbering one hundred and thirty men.

The active military force of this State consists at this time of thirty-nine (39) companies of riflemen, one (1) company of cavalry, three (3) of artillery, seven (7) of veterans, and five (5) of the Hudson brigade, organized as militiamen, and numbering about three thousand (3000) men. This force is well armed and equipped, and is as thoroughly drilled and disciplined as any other militia troops in the United States. Tabular statement A contains in detail the issues of

clothing to the different companies equipped, during the present year. Tabular statement B contains the issue of arms and accoutrements during the same period.

There have been issued during the year, the following uniforms:

732 caps.
534 caps, Zouave.
720 jackets.
474 jackets, Zouave.
720 trowsers.
474 trowsers, Zouave.
474 vests, Zouave.
474 sashes, Zouave.
474 leggins, Zouave.
694 great coats.

The following companies have been recruited and armed during the year, and requisitions for clothing are on file, but owing to the want of funds for this purpose, clothing has not been furnished:

Company G, Third regiment, New Jersey rifle corps.
Company H, Third regiment, New Jersey rifle corps.
Company F, First regiment, Hudson brigade.
Company E, Second regiment, Hudson brigade.
Company G, Second regiment, Hudson brigade.

Companies A and B, First veteran battalion, Passaic brigade, have been organized, but neither armed nor clothed.

The following arms have been issued during the year:

1,222 muskets, T. A. Company, calibre 58.
80 rifles, United States, brass mounted, calibre 54.
1 Griffin gun, 3 inch rifle.

Under the act of the Legislature of March 31, 1864, for a more effectual organization of the militia, section 4 provides that there shall be paid annually to the Treasurer of each company of active militia of this State, consisting of forty members, the sum of sixty dollars; of sixty members, the sum of eighty dollars; and of eighty members, the sum of one hundred dollars, to be expended for the purposes of drill room, armory and other expenses. Companies have received the amounts to which they were entitled by law, and have applied it to the payment of other expenses incident to their organization, and no part of it for purposes of drill room. The law is ambiguous on this point It was manifestly the intention of the Legislature that the amounts so received should be, in the first instance, applied for the purpose of armory rent for the care and preservation of public property in their use, and the surplus to defray other expenses. I would recommend that the act be so modified as to leave no doubt as to the object and intention of the Legislature.

There were organized and armed during the war, two hundred and nineteen (219) militia companies, under the calls of the Commander-in-chief in 1861 and 1863, for the organization of the militia for the defence of the State, to which nine thousand eight hundred and thirty (9,830) arms have been issued. In the course of the war these companies had become so depleted in numbers by enlistments in the vol-

unteer and regular service that they found it impossible to keep up their organizations. It is believed that nearly all of these companies have disbanded. In Appendix A, will be found a copy of a circular which has been sent out from this office to the officers and surities of these disbanded organizations, requiring the immediate return of the property.

In some localities, agents have been appointed for the collection and return of the arms. There was received during the year 1866 from these companies, nine hundred and eleven (911) arms. During the present year there was received one thousand four hundred and ninety (1,490) arms, leaving a balance of seven thousand four hundred and twenty-nine (7,429) still in the hands of disbanded companies. For partlcular sources from which they were received, see statement I, of my last annual Report, and statement E, herewith appended. The arms thus received are in a most irreparable condition from rust, for want of proper care and usage. As fast as received, they have been cleaned and put in as good condition as the nature of the injury would allow. From this source there has accumulated in the Arsenal a large amount of property entirely useless to the State, requiring an annual expenditure of a considerable amount in its care and preservation. Several favorable offers for this property were received during the year, which I should have been glad to have accepted, had I been satisfied that I had the authority of law to dispose of it. I would respectfully recommend that authority be given by the Legislature for the sale of this property whenever there should be a demand for it, and fair prices can be obtained, and that the proceeds therof, be applied towards the alteration of muskets into breech loaders after the model adapted by the United States Ordnance Department, as recommended in my Report of last year, for the details of which you are respectfully referred thereto.

There remains in the Arsenal at this time, seven thousand five hundred and thirty-six (7,536) new Springfield rifled muskets, and nine thousand one hundred and eighty-two (9,182) muskets and rifles of all kinds and calibre; one thousand and eighty-nine (1,089) pistols, new, and sixty-three (63) that have been in service. There are also one thousand nine hundred and seventy-six (1,976) sabres and swords, new and serviceable, and one hundred and four (104) unfit for service. The State has three (3) four gun batteries of light Napoleon guns, bronze, including caissons, battery wagons and forges, one (1) complete four gun battery of James' guns, bronze, four (4) complete gun batteries of Griffin guns, and one (1) battery of two guns, Griffin.

The employees at the Arsenal have been engaged during the year in cleaning and repairing arms and equipments. There have been cleaned and repaired three thousand nine hundred and twenty-four (3,924) arms.

About the close of the last year, a communication (Appendix B) was received from Gen. G. H. Crossman, Assistant Quartermaster-General and Chief Quartermaster of the Department of the East, enclosing a circular in relation to the erection of iron head blocks, at every grave of a deceased United States soldier.

This circular was referred by your Excellency to this office, with instructions to obtain the information required. Eight hundred (800) printed circulars, (Appendix C) were forwarded to every clergyman and person in charge of cemeteries or burying grounds in this State. The response to this circular has not been as prompt and general as could be desired. Over one hundred (100) replies have been received giving the names and burial places of over three hundred and fifty (350) deceased federal soldiers, buried in this State.

The war of the rebellion having terminated, all the volunteer troops of this State, engaged in the service of the United States, mustered out, and the property which had been received from them, turned over to the United States, I was enabled to devote my whole time for the past two years, with the assistance of two clerks, to the adjustment and settlement of the claim of this State for expenses incurred on war account, by accountability of property purchased and issued to volunteers, and explanation of expenditures incident to the enrolling, subsisting, &c., troops employed in aiding to suppress the late rebellion against the United States, as provided by the act of Congress, approved July 27, 1861.

The claim of this State against the United States, for expenses incurred under general authority of the War Department, on file in the office of the Third Auditor of the Treasury for adjustment on the 30th of November, 1866, amounted to the sum of $1,181,487 12. Of this claim the amount embraced the first, second and third instalments, amounting to the sum of $501,407 80 had been officially settled in 1863, and $356,667 49 had been allowed, and $144,740 31 had been suspended and disallowed for explanation of the object and necessity of the different items of expenditures, to which I had prepared and filed explanations of this difference. In the examination of the balance of the claim, embraced in the fourth to sixth instalments inclusive, the accounting officer re-opened the settlement, including the amounts allowed, suspended, and disallowed, and in February last furnished this office with a statement of difference of the fourth, fifth and sixth instalments filed, in which he suspended and disallowed for explanation $513,664 47, and allowed $154.194 17. In addition to this, the State was charged with $382,613 90, her proportion of tax due the United States for 1861, and $74.000, advanced to the State in 1861, and also charged back $576,200.17, received on the 27th day of December, 1861, for clothing furnished volunteer troops under a special contract with the Quartermaster-General's Department, and also $160,440, received from the Chief of the Cavalry Bureau, on the 7th of April, 1864, for horses furnished the Third Cavalry, for accountability of property, thus bringing the State largely in debt to the United States. This office has furnished and filed with the Chief of the Cavalry Bureau, the property vouchers for the horses previous to the receipt of the money. The property vouchers for the amount received on the 27th of December, 1861, had been filed in the Quartermaster's Department for an amount largely in excess of the amount received. At the commencement of the present year, the State, as appeared by the books of the Treasury, under a system of red-tapeism,

was made debtor of the United States, in the sum of $1,089,864.64. I took up the sheets of differences furnished by the Third Auditor in February, and continued my examination and explanation until about the 20th of August, when they were completed and filed with the Third Auditor. The differences consist of accounts suspended and disallowed in whole or in part, for the slightest informality in the vouchers, for want of conformity to general regulations and orders governing the issues to the army of the United States, and for want of uniformity in the rates paid for services or for articles furnished at different times and places, and for rates considered excessive or exorbitant. In fact these examinations are critical, made with a view to take every possible exception as to the form and substance of the vouchers, and the items comprised in them, to elicit an explanation of the object and necessity of the expenditures, the reasons for discrepancies in form, or the prices paid, and generally, for accountability of property. This particularity may be very proper in the examination of private claims for settlement, but it appears to us unnecessary and needless labor, to require the same strictness of examination of claims of States which had been previously examined by accounting and disbursing officers of the State, before payment. Upon a re-examination of claims amounting to $1,167,311 89, with the explanations furnished, the State has been allowed the sum of $1,108,231 38, which has been placed to her credit. I have been furnished by the Third Auditor with the difference sheets of the settlement of the seventh instalment, amounting to the sum of $14,175 23, of which there is allowed $162 80, suspended and disallowed, $14,012 43. This difference can be as readily and satisfactorily explained, as in the previous settlements, and I believe that 95 per cent. of this claim will be allowed on re-examination of the account, with the explanation which I am now engaged in making. The claims of this State are comprised in seven different accounts, filed with the Third Auditor at different times, as the expenditures were incurred, and only such accounts were presented, as in our opinion, would be allowed under the rules and regulations adopted by the United States Treasury for the settlement and payment of State war claims. These rules were in substance the same, as those in force prior to the war, for the settlement of private claims, and the expenditures of the army and navy. They require great particularity in form, and restrict the expenditures to certain rates for services and army supplies, for issue of such only as were allowed by army regulations. Since the filing of our claim, these rules have been greatly modified, and made more liberal in their terms, to meet the wants and requirements of expenditures necessary in clothing and equipping volunteer troops under different circumstances, from any that had occurred in this country.

I am now engaged in arranging the eighth instalment of accounts which were omitted in our previous claims for the reasons above stated. This will embrace the final claim of the State against the United States for expenditures incurred on war account. The vouchers were not originally made out in the form required by the rules of the Treasury Department, nor in duplicate. This defect we are en-

deavoring to remedy, by the production of an additional voucher in proper form from parties now living who can be reached by mails, and in default, the original voucher from the Treasurer's office, with other evidence of the payment of the money by the State, and the impossibility of obtaining of other vouchers by reason of death or absence. This claim will amount to about the sum of $97,000, which will comprise the entire amount expended through this office on account of troops engaged in the service of the United States.

Before closing my Report of the transactions of this office for the year 1867, I wish to state that the difference sheets arising on the special settlement of the State claims, embracing the suspended and disallowed accounts of the first to the seventh instalment inclusive, have been received. The amount claimed by the State as per accounts current filed with the Treasury Department is, $1,181,487 12, of which amount there has been allowed $1,108,231 38, leaving a difference of $73,255 74. On account of this there has been received as follows:

August 31, 1861,	$74,000 00
United States tax for 1861,	382,613 90
August 13, 1867,	100,000 00
December 17, 1867,	551,617 48
	$1,108,231 38
Suspended and disallowed,	$73,255 74

This difference can be explained to the Treasury Department, and it is confidently believed that every dollar expended through this office on account of enrolling and equipping troops for the United States service, will ultimately be reimbursed to the State.

Statement A, contains an account of clothing, camp and garrison equipage, quartermaster stores, baggage train, hospital supplies, ordnance and ordnance stores, serviceable and unserviceable, remaining on hand at the State Arsenal on the 30th of November, 1867.

Statement B, the number of arms cleaned and repaired during the year ending November 30, 1867.

Statement C, the names of contractors and others, and articles furnished by each.

Statement D, clothing camp and garrison equipage turned into the Arsenal by disbanded and other military companies, during the year ending November 30, 1867.

Statement E, ordnance and ordnance stores turned into the State Arsenal by disbanded and other military companies, during the year ending November 30, 1867.

Statement F, clothing, camp and garrison equipage issued to the uniform companies of this State, upon requisitions approved by the commandants of the corps to which said companies are attached, during the year ending November 30, 1867.

Statement G, ordnance and ordnance stores issued to the uniformed companies of this State, upon their giving bond according to law, during the year ending November 30, 1867.

Statement H, the quantity of ammunition expended during the year ending November 30, 1867.

Tabular Statement A, contains in detail the issue of clothing to the different companies equipped during the year ending November 30, 1867.

Tabular Statement B, contains the issues of arms and accoutrements during the same period.

Tabular Statement C, is a consolidated Report of ordnance and ordnance stores, clothing, camp and garrison equipage, &c., in possession of the New Jersey militia, on the 30th of November, 1867.

All which is respectfully submitted,

L. PERRINE,
Quartermaster-General of New Jersey.

APPENDIX.

APPENDIX A.

State of New Jersey,
Office of Quartermaster-General,
Trenton, ———, 186 —.

Sir:—Information has been received at this office that —— —— regiment, ——— brigade, of which you were ———, has disbanded.

You are hereby directed to return the arms and accoutrements issued to said company, to the State Arsenal, without delay, addressed to the undersigned.

Advise this office by mail of the time and manner of forwarding them, enclosing an invoice of the property, and a bill of lading of the Railroad or Transportation Company.

Unless these directions are complied with in a reasonable time, recourse will be had to recover the value of the property, the payment of which is secured by the bond of yourself and others, dated the —— day of ———, 18 —, in the sum of ——— dollars.

An invoice of the property charged against you is herewith enclosed.

Very respectfully, your obedient servant,

LEWIS PERRINE,

Quartermaster-General N. J.

APPENDIX B.

SIR:—This circular is addressed to all the officers of the Quartermaster's Department in the Military Department of the East, but as there are no officers of the Department now stationed in New Jersey, I take the liberty of requesting that you will direct some one of your staff to make the inquiries and report required. I am under the impression, although not officially informed of the fact, that some burials of soldiers during the war took place at Newark or Trenton, or some other town in New Jersey, other than Beverly, of which last place I have already the necessary records.

G. H. CROSSMAN.

CIRCULAR.

ASSISTANT QUARTERMASTER-GENERAL'S OFFICE,
PHILADELPHIA, Oct. 23, 1866.

Proposals will soon be invited, by the Quartermaster-General, for cast iron head blocks, for national cemeteries.

It is proposed to put up one of these blocks at every grave of a United States soldier (or of a rebel prisoner of war, who died in northern prisons), throughout the country, whether known or unknown.

You will please make inquiries, and examine the number of such interments at, or in the vicinity of your post, or within the adjoining district of country, and report to this office a complete list of the same, to conform to your judgment of the number of these head blocks that will be required, and at what particular points to be delivered.

Where good head boards of wood or stone are now standing, the iron blocks will be put up at the "foot" of the graves; where there are now no good memorials, the iron blocks will be put up at the "head" of the graves.

You will also please send to this office a statement, giving the list of names which will be required to be cast in the head blocks, in all places where interments are made, enumerating the places by name, with the number of interments at each, and stating whether you have the lists attainable at your post, and if so, at what dates copies of them can be ready for the contractor. If you have not the lists at-

tainable, then state where they are to be found, and at what date they were forwarded to the Quartermaster-General.

You are hereby instructed, when the lists are attainable by you, immediately to take measures to have copies of them prepared for the use of the contractor.

The list for each locality, and for each grave yard in each locality, should be prepared separately for this purpose, to avoid confusion and mistakes in the delivery of the blocks.

Please to make your Report as soon as possible, without waiting for the statement regarding the list of names, which should follow, however, with the least practicable delay.

Very respectfully, your obedient servant,

G. H. CROSSMAN,

Asst. Quartermaster-General, Chief Quartermaster
Dept. of the East, Brvt. Brig. Gen. U. S. A.

APPENDIX C.

Office of Quartermaster-General,
Trenton, October 30, 1866.

Sir:—It is in contemplation on the part of the Quartermaster-General's Department of the United States, to place at every grave of a deceased United States soldier throughout the country, cast iron head-blocks.

In order to obtain the necessary information to carry out this object, you are requested to furnish this office, at your earliest convenience, with the number of interments of deceased soldiers in your cemetery, together with the name, rank and organization, and the date, as near as may be, of the death and interment of each deceased soldier.

By order of the Governor.

Very respectfully your obt. servant,
LEWIS PERRINE,
Quartermaster-General, N. J. M.
